

MEMORANDUM

Date December 20, 1967

ANACONDA ALUMINUM COMPANY
COLUMBIA FALLS, MONTANA

SUBJECT: BPA Capacitor Yard Expansion

REFERENCE: Potlines 4 & 5

FROM: R. A. Sneddon

TO: E. O. Woster

As you are aware Bonneville Power Administration intends to add an additional capacitor bank for Potlines 4 & 5. To do this, they will require additional land.

Attached are two copies of their request for the land including their appraisal price and the land description. We have reviewed the description and find it to be essentially accurate.

The transfer of land has in the past been executed through C. J. Hanson, but I assume that we should now handle this transaction through the Louisville Corporate Office. Two copies of the completed transaction should be mailed to Columbia Falls and one to the Land & Tax Department in Butte; possibly a copy to C. J. Hanson.
